

The NU Shed

A NUCONSTEEL PRODUCT

NUCONSTEEL® has designed the most effective way to add outdoor storage space to protect homeowner's lawn equipment and other personal belongings. The **NUSHED** designs offer several different options from

a gambrel roof to a steel framed floor system. All **NUSHED** packages include a door and the 1200, 1400 & 1600 sheds are gambrel with a

steel framed second floor to provide the ultimate storage solution.

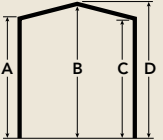

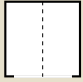

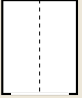

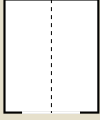

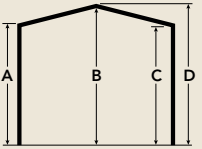

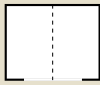

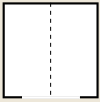

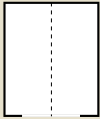

The pre-engineered wall panel system provides structural stability and cuts the fabrication down to one fully integrated step. These packages are designed to meet contractor's high standards and at the same time are perfect for the do-it-yourselfer ready to tackle their next project.

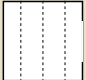

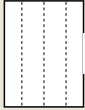

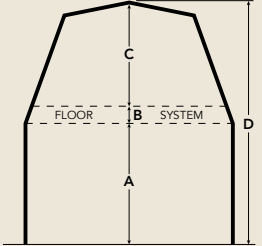

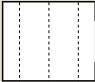

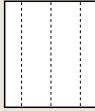

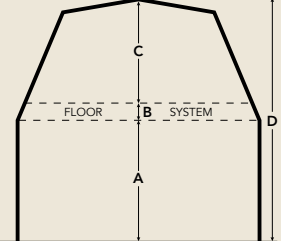

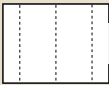

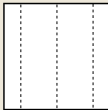

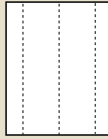

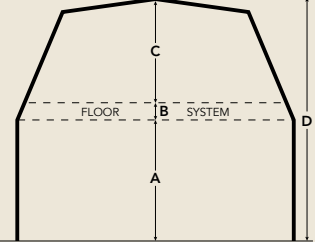

NUSHED, *the constructive green choice.*
