

NU SUPPORT

PLANT-IN-A-BOX

NUSUPPORT *PLANT-IN-A-BOX*

In addition to our Circle of Support program, **NUCONSTEEL**® can provide the knowledge and guidance required by your plant set-up needs. **NUCONSTEEL**'s "Plant-in-a-Box" program provides help with factory layout, outfitting, and set-up; sales tools; and continual support and training.

Using programs and pre-calculated requirements, our Management Analyst can evaluate your specific needs and find the perfect solution for items such as electrical requirements, machine and set-up materials layout, and your finished goods yard layout. All this at no cost to you!

Using programs and pre-calculated requirements, our Management Analyst can evaluate your specific needs and find the perfect solution for items such as electrical requirements, machine and set-up materials layout, and your finished goods yard layout. All this at no cost to you!

NUCONSTEEL can also offer factory outfitting needs at competitive pricing. From jack stands and roller tables to material handling carts, we can make recommendations based on your requirements.

We can also offer personal assistance for your factory set up. Contact your sales representative today to receive a quote.

NUCONSTEEL, *the constructive green choice.*

The NU Way to Build!

FACTORY LAYOUT

NUCONSTEEL® can take your existing footprint (or recommend one if you're green fielding) and provide a schematic showing our recommendations based on your business needs.

- Raw and Finished Material Flow
- Raw and Finished Material Storage
- Air Line Needs
- Electrical Needs and Locations
- Machine and Set-up Materials Layout
- Finished Goods Yard Layout

At no cost to you.

SALES TOOLS

NUCONSTEEL has a library of marketing materials – videos, spec sheets, model flyers and brochure designs that can be customized with your company logo and contact information.

- Web and Print Graphics
- Standard Brochures and Flyers
- Standard Videos and DVDs

Digital files available at no cost to you.

FACTORY OUTFITTING

Take advantage of our knowledge and resources when equipping your plant with the accessories needed to produce a quality product at an affordable price. We can make recommendations based on your requirements and deliver the majority of equipment and supply items directly to your plant.

- Jack Stands
- Cordless Drivers
- Roller Tables
- Air Compressors
- Pin Guns
- Truss Carts

At competitive pricing.

FACTORY SET UP

You can save a lot of start up time by having an experienced NUCONSTEEL crew come in and set up your roll formers, decoilers, roller tables, material handling carts, work stations, etc. With their knowledge and experience you can bypass the normal trial-and-error headaches and set-up mistakes.

Please contact your NUCONSTEEL sales person for a quote.

TRAINING & SUPPORT

In addition to the normal software and machine training at our facilities in Denton, Texas, NUCONSTEEL offers these additional support services.

- On-Site Machine Operator Training
- Installation Training for your Trades
- Designer Mentor Program. Send your designer with a set of plans to our residential facilities in Denton, Texas for training and help with your plans.

Please contact your NUCONSTEEL sales person for a quote.

A Proven Working Model

We not only sell the **NUFRAME** and **NUTRUSS 2.0** systems, we use them in our manufacturing facility every day in Denton, Texas. Through years of experience, we have developed the most effective and efficient layout and set-up for a working environment utilizing these systems. Take advantage of our hard work.
